## Shri Vaishnav Institute of Information Technology

**Cisco Networking Academy** delivers a comprehensive, 21st century learning experience to help students develop the foundational ICT skills needed to design, build, and manage networks, along with career skills such as problem solving, collaboration, and critical thinking. Student's complete hands-on learning activities and network simulations to develop practical skills that will help them fill a growing need for networking professionals around the world.

### **Student Benefits:**

- Students gain ICT knowledge and practical experience through the Networking Academy program.
- Students will also earn Cisco career certifications to help fill an estimated eight million networking jobs around the world.
- To help students prepare for a growing number of networking positions in a variety of industries, Networking Academy courses emphasize the practical application of knowledge and the development of career skills such as critical thinking, problem solving, and collaboration.
- Networking Academy works with business partners, NGOs, government agencies, and academies to help students and alumni pursue career opportunities in networking and ICT.
- As a Networking Academy student, students gain access to innovative learning tools, a global support community, and resources to help you launch your career.
- Students who successfully complete Networking Academy courses are invited to join the global alumni community on LinkedIn.
- Networking Academy courses include rich multimedia content, Flash-based interactive activities, videos, games, and quizzes to support a variety of learning styles and help increase knowledge retention.

Networking Academy courses are offered through a blended learning model that combines classroom instruction with online curricula, interactive tools, hands-on activities, and online assessments that provide immediate feedback.
