An Article Review is a critical, constructive evaluation of literature in a particular field through summary, classification, analysis, and comparison. If it is a scientific review article, it uses database searches to portray the research. An article review gives scholars or students the opportunity to analyze and evaluate the work of other experts in a given field.

- Summarization, classification, analysis, critiques, and comparison.
- The analysis, evaluation, and comparison require the use of theories, ideas, and research, relevant to the subject area of the article.
