INTRODUCTION

Management Research is a systematic process of gathering, recording and analyzing data to facilitate the decision making process. Applied research facilitates managerial decision making and reduces uncertainty. It is an amalgamation of techniques and procedures that helps the researcher to know and understand the phenomena in focus. It connotes patient study and scientific investigation, wherein the researcher takes another, more careful look at data to discover all that can be known about the subject under study. The workshop aims to explore the basic dimension of research and the need for scholars to rethink the assumptions that underline historic paradigms of research in the field of management. It is designed to provide participants with hands-on approach to conduct research. On completion of the workshop, participants would develop the skills to review the literature, develop hypotheses, frame research design, identify sampling techniques and comprehend the role and relevance of the tools for data collection and analysis. The six-day workshop will be exposing the participants to theoretical input on qualitative research techniques, followed by the field work based on syndicates. The participants will be expected to choose a research topic and develop a research paper during the workshop. Subject areas include all functional areas of management, administration and educational research. **Based on peer review, good quality research papers written during the workshop will be published in *AIMS Journal of Management*.**

OBJECTIVES

- To expose the participants to contemporary research methodology.
- To build research capability among young scholars and faculties in the area of Management, Commerce, Economics and other streams of Social Sciences.
- To provide an opportunity to researchers through research clinic to present the problems related to the methodology faced by them during their current work.
- To prepare the participants to make scholarly contributions in their respective area of research.
- To expose the participants to Qualitative Research Techniques.

WORKSHOP OUTCOMES

At the end of the workshop, participants should be able to:

- Understand the literature review and identify the research gaps
- Design the research in their respective area of research.
- Write quality scholarly articles and papers
- E-certificate to all the participants
- Based on peer review, good quality research papers written during the workshop will be published in *AIMS Journal of Management*

COMMITMENT OF PARTICIPANTS

- Participants are expected to come with open minds and attitude for learning and exploring new vistas of research.
- Participants have to attend the workshop for all the six days as per the schedule. Partial participation will not be entertained.
- Participants will be required to complete the group activities as mentioned for maximum take away from the workshop.

DELEGATE FEES

A nominal fee of Rs. 500/- for Academicians and Rs. 400/- for Research Scholars (Including service tax) covering the cost of reading material, shall be payable per participant. Fees once paid will not be refunded. However, a substitute delegate is acceptable. Registration would be closed once a pre-decided cut-off number is achieved. Last date for registration is May 25, 2022. Kindly find below the link for registration –
